HYPERSHOCK
TECHNOLOGY

HyperSHOCK Technology (patent pending) helps power the ball through the pins by controlling the influence they have on the ball's path through the deck. Columbia 300 balls with HyperSHOCK not only get you to the pocket, but drive through like no other on the planet.

Columbia 300 Lit — Our new Reflex XS cover wrapped around the new Lit Asymmetric core provides strong mid-lane traction with big hook potential and a ton of hitting power. Bowling pins all over the world are about to get lit up by this new oil monster.
