

HYPERSHOCK
TECHNOLOGY

HyperSHOCK Technology (patent pending) helps power the ball through the pins by controlling the influence they have on the ball's path through the deck. Columbia 300 balls with HyperSHOCK not only get you to the pocket, but drive through like no other on the planet.

Columbia 300 Saber — The Saber's fast revving core, strong coverstock and its cat like reflexes will give you all the mid lane traction and continuation that you need. The Reflex Solid coverstock and New-Dynamix asymmetric core have been combined to bring you the all new Saber by Columbia 300. Welcome to the jungle.
