White Microfiber.
Long Slide.

S8
PD818
White Microfiber.
Long Slide.

S10
PD820
Grey Felt.
Longest Slide.

USE A LOWER HEEL NUMBER THAN SOLE NUMBER

Because you brake with your heel, use a heel with more friction (a lower number) than the sole. Otherwise, you won't have adequate slide-brake action. An exception would be if you bowl best with a heel that has the same number as the sole. Using a higher heel number than sole number is possible but not recommended for general approach conditions.

SLIDE & TRACTION HEELS

Standard Brake.

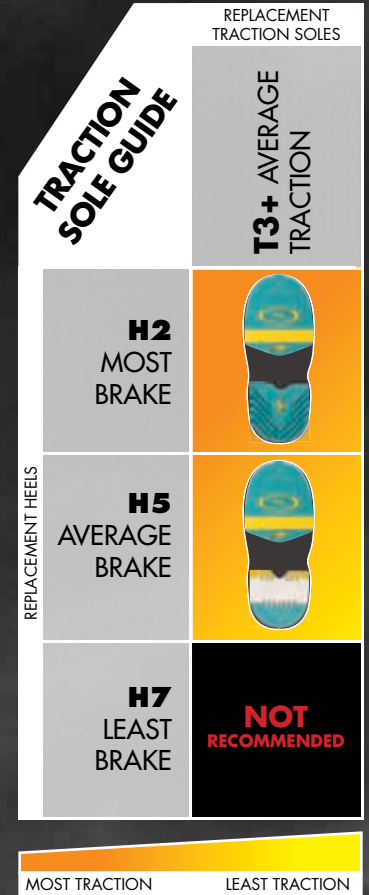

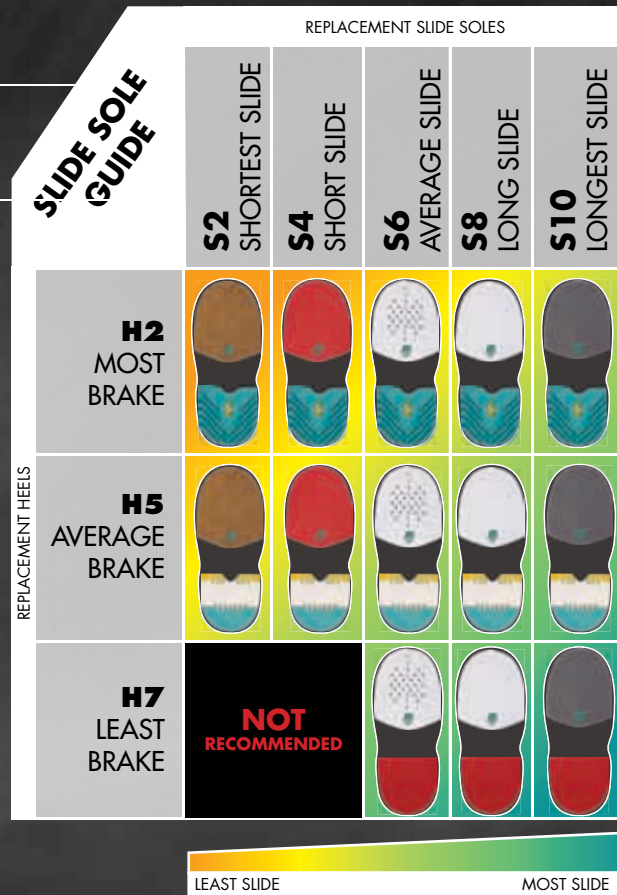

H7
PD824
Red Leather.
Least Brake.

SLIDE GUIDE

Use the Performance Sole/Heel chart to gauge which combinations will give you **Optimal Sliding & Braking** for your style of delivery.

SOLES & HEELS TIPS

Break-In Your Soles & Heels

When changing either the soles or heels of your performance shoes Storm recommends that you use caution when trying the new combination for the first time. Taking several practice slides on the approach without holding a ball will allow the bowler to predict how the reconfigured shoes will slide on the current approach conditions before throwing the next ball.

How to Avoid Peel Back

When attaching a sole to the performance shoes make sure that the sole's leading edge is first butting against the front of the toe bumper. Note that the toe bumper will extend down slightly over the sole edges thereby protecting the leading edge of the sole from peel-back.

Pete Weber

PBA PRO & STORM SHOE
REPRESENTATIVE

The first player in PBA history to achieve the coveted Triple Crown twice, Pete Weber also holds the record as the oldest bowler to win the Tournament of Champions. He received his fourth Best Bowler ESPY Award in 2014.

His style is a power stroker, which combines the high backswing and rev rate of a cranker with the smooth timing of a stroker.
