MONGOOSE "LIFTER"

The Mongoose "Lifter" is designed to create a consistent and heavy roll for oily lanes. Keeps the little finger tucked in as recommended by many touring pros. The "Lifter" induces the fingers to do the work while providing proper wrist support.

MONGOOSE "EQUALIZER"

The Mongoose "Equalizer" is designed to free up the hand and fingers to allow you to get around the ball to create more spin to get the ball further down the lane on drier conditions, while providing proper wrist support.

MONGOOSE "OPTIMUM"

The Mongoose "Optimum" is designed to give you the best of both worlds the "Lifter" and the "Equalizer" has to offer. The "Optimum" can be used with or without the finger strap by simply leaving it under the fingers or putting it around them as shown.

BIO MAGNETICS "FOREARM SUPPORT"

The Mongoose "Forearm Support" applies pressure and support to tendons to help relieve painful elbow problems

BioMagnetics is said to induce blood and oxygen flow to assist in healing.

KneedIT® Therapeutic Knee Guard

The Robby's Restrictor is our new wrist positioner designed to keep your wrist from over-rotating. The special packaging filters out fluorescent lights, prolonging shelf life. It's also a great aid for irritations caused by gardening, needlepoint, mechanic work and household repair chores. Vinyl Original

Robby's Original Positioner is specially designed to help you throw a ball with precision, accuracy and power. When set with the thumb on top of the ball, the Original produces the normal 11 o'clock – 5 o'clock position, enabling the ball to swing out in a true pendulum. At the bottom of the pendulum swing, the Original supports your wrist and lets the thumb release cleanly. Both back and front metal supports maximize wrist strength while allowing the ideal wrist angle for superb delivery. Choose from Stars 'N' Strikes, brown, blue or red.
