The beauty of this system is that dirt never reaches the vacuum.

It allows your vacuum to run at maximum efficiency all the time.

The high capacity Catch Can and custom bag design reduces the frequency of having to empty your vacuum.

PVC pipe design allows for multiple vacuum lines throughout your shop, allowing you to vacuum from any work station in your pro shop at any time.

Specially designed VVS accessories, including the Ventilation Hood and Drill Shield, help to minimize airborne dust when bevel sanding or drilling a ball.
